

S, AE series

Features

Our safes come with a two-way safety lock as a standard feature. Alternatively all models are available with a mechanic or electronic code lock (see illustration).

Files are stored on shelves. Individual features and fittings are available on request.

The cabinets are delivered in RAL 7015 slate grey and RAL 7035 light grey as standard colours. Each cabinet is available with optional silver or black fittings. On request all RAL-colours are available at extra charge.

Safety – tested and classified

Burglar-proofness WG and EN 1143-1	Fire protection	Insurance classification ⁶ ED tariff (not binding)
Class A Single-wall		commercial: up to € 2.500 private: up to € 2.500
Class 0 (30/30 RU) ⁴	Light protection	commercial: up to € 10.000 private: up to € 40.000
Class I (30/50 RU) ⁴	Light protection	commercial: up to € 20.000 private: up to € 65.000
Class II (50/80 RU) ⁴	Higher protection	commercial: up to € 50.000 private: up to € 100.000
Class III (80/120 RU) ⁴	Higher protection	commercial: up to € 100.000 private: up to € 200.000
Class IV (120/180 RU) ⁴	Higher protection	commercial: up to € 150.000 private: up to € 400.000
Class IV KB⁵ (120/180 RU) ⁴	Higher protection	commercial: up to € 250.000 private: up to € 650.000
Class V (180/270 RU) ⁴	Higher protection	commercial: up to € 250.000 private: up to € 650.000
Class V KB⁵ (180/270 RU) ⁴	Higher protection	commercial: up to € 375.000 private: up to € 1.000.000

If connected to an alarm system approved by the VdS (Association of property insurers) the above-mentioned insured value will double.

⁴ The value of resistance is expressed in RU (Resistant Unit). During the test this RU value is calculated by the testing institution, based on the fracture times measured.

⁵ Upon request available in KB design (enhanced protection against diamond bit drills).

⁶ in Germany

Features of performance – overview

Proven burglary-protection in accordance with EN 1143-1
Maximum protection against burglary with mechanical or thermal tools (except for S series)

Magnetism
Protection against hazards caused by magnetism

Vandalism
Optimum protection against vandalism

Tilt resistance
With doors open

Twistlock
Wraparound locking through 40mm twistlock (AE 4 - 5), 30mm twistlock (AE 1 - 3) and 20mm twistlock (S)

Preparation for alarm system
Preparation for connection to an alarm system (without electronic components) optional (from class III series)

TÜV
Monitored by the TÜV (Technical Inspection Agency)

Accident protection
Warranty for tested accident protection (except for S series)

Recycling
Raw materials are taken back and reused

Tested in accordance with European standard EN 1143-1

The European Certification Board – Security Systems (ECB-S) is a neutral certification institution in accordance with EN 45001 of the Research and Test Association. Based on a test in accordance with a European standard the European Certification Board issues an ECB-S product certificate. The ECB-S consists of representatives of users, insurance companies and manufacturers provided with equal rights.

PROTECTION OF VALUABLES

Our valuables protection cabinets – furniture fittings, wall safes or classical safes – meet your safety requirements and offer protection on the highest level. Different sizes, safety levels and a variety of locking devices offer a wide range of applications, in business as well as in the private sector.

- SERIES**
- ▶ AMA | AMB
 - ▶ AE
 - ▶ AW
 - ▶ AG

DATA CARRIERS

Data protection cabinets distinguish themselves for their utmost fire- and burglar-proofness. In order to meet your company-specific needs, individual fittings and the combination of several safety devices, e.g. lock systems, alarm systems, are possible.

- SERIES**
- ▶ AED

DOCUMENTS

Document cabinets are a safe place to keep contracts, instruments, cash and valuables. These model series offer a variety of professional solutions with individual fittings for your business documents. The AEP series distinguishes itself in particular for its fire-proofness class S 120 P.

- SERIES**
- ▶ DST
 - ▶ AEP
 - ▶ AFH

IT

IT and server safes safeguard the existence of your enterprise. Fire- and burglar-proof EDP cabinets guarantee maximum physical safety of your business data (e.g. customer files, balances, production data) and of your software and hardware.

- ▶ IT-SAFES
- ▶ SERVERSAFES

SERVICE

Our competent service team delivers the safe ordered directly to the place of installation. We assist you with help and advice in case of problems such as maintenance, conversion, move or waste disposal. Our Germany-wide network guarantees quick help in the event of damage as well as an emergency opening of your safe within 24 hours.

- ▶ 24h SERVICE
- ▶ MAINTENANCE

ENGINEERING

Individual company structures require individual solutions. We assess your needs, create the plans and realize the safety system geared to your needs. We combine our extensive know-how and the latest technologies with your requirements and desires, e.g. when it comes to dimensions, shapes and design, in a synthesis of tradition and innovation.
